

CastAlum Ltd is an award winning Welshpool based company, internationally recognised for it's expertise in the aluminium diecasting business. The company supplies high volume, aluminium diecastings to the automotive industry worldwide, with it's components being used in a number of brands including BMW and Ford.

APPRENTICES

We are offering a four year programme for Engineering Apprentices to work alongside our existing qualified engineers. Successful applicants will be offered a structured employment and learning programme that will culminate in a recognised Apprenticeship Framework qualification.

An interest in engineering, mechanics or electronics, all of which will contain an element of mathematics, would be beneficial.

If you are successful, the apprenticeship scheme will commence in September 2018.

If these opportunities are of interest to you, please send your CV with a covering letter to Alan Jones, HR Manager, Castalum Ltd, Buttington Cross Enterprise Park, Welshpool, SY21 8SL or email alan.jones@castalum.com or davina.cole@castalum.com.
